Sample of Process Recording #2

PROCESS RECORDING OUTLINE

Student's Name: \_\_\_\_\_ Date: \_\_\_\_\_  
Client's Name: \_\_\_\_\_  
Interview Date: \_\_\_\_\_ Session #: \_\_\_\_\_

- I. PURPOSE OF THE SESSION: To address my concerns about Pt.'s health and emotional state, refer Pt. to a mental health center, help him cope with the consequences of his maternal health, and assist Pt. with setting up an appointment with a local mental health center.
- II. OBSERVATION: Pt. was affected when I was a young child, however he also recognized that he is also concerned that he is going to be harmed if Pt. was diagnosed and diagnosed to see these professionals help because he has previously been named away by a couple of the mental health centers on the list that I go to him. He did not want to accept help from his family and repeated offered that they would not be able to help him financially to pay to seek this help.
- III. CONTENT: The content is from the middle of the session.

SUPERVISORY COMMENTS	INTERVIEW CONTENT (I read, he said)	STUDENT'S GUT LEVEL FEELINGS	CLIENT'S FEELINGS/AFFECT	IDENTIFY INTERVENTIONS & MAJOR THEMES
	I said, "I want to make sure that you understand why I am referring to you a mental health center. As I told you in the beginning of this session I was concerned about your mental health, you need to seek further professional help which I can provide."  He said, "What has he had down for a moment? I know that I need help. My mother said that if you can recommend me to see a psychologist?" She said that I need help."  I said, "Yes. That is what I am going to do, but I want to make sure that you understand the reason why I am doing this."  He said, "Does he have? I understand because like I told you before I don't want to be hospitalized. I just don't like when I made these scratches here doesn't he have scratches? I was frustrated that I had to do these to my arm and I didn't feel it."  I said, "Yes. This is why your mother and everyone at this clinic is concerned about your mental health. Because if you made scratches with a knife and you didn't feel it, you can do other worse things to yourself if which you put your life in danger."  He said, "Where are you calling? Where am I going to? I have already been to this one place by Van Houten and it is a whole something like 11-31 and they didn't help me. From the outside it looks like it's building for help but they also help while."	I want have the mother discuss what she thinks are Joe's problems.  That is terrible that she feels that Joe doesn't love them. I wonder what the mother is to him not liking his mother who is a single mother.	Swallow.  Sad and fearful.	Clarifying the situation and getting another perspective on Joe's situation. Pt.'s current contradict mother's stories a bit. In the intervention, I attempted to help both the pt. and his mother see and understand each other. Major themes covered were: Joe doesn't sleep on the sofa, instead he sleeps in a toilet, according to the mother. Joe brought into his brother to let me progress and provided the towel, Joe's mother have helped him, his parents do love him, but he rejects them, one reason he was taken to the hospital for suicide, a doctor recommended for Joe to be taken to psychiatric facility because Joe had traumatic

SUPERVISORY COMMENTS	INTERVIEW CONTENT (I read, he said)	STUDENT'S GUT LEVEL FEELINGS	CLIENT'S FEELINGS/AFFECT	IDENTIFY INTERVENTIONS & MAJOR THEMES
	I said, "Where are you calling? Where am I going to? I have already been to this one place by Van Houten and it is a whole something like 11-31 and they didn't help me. From the outside it looks like it's building for help but they also help while."  He said, "Does he have? I understand because like I told you before I don't want to be hospitalized. This is why your mother and everyone at this clinic is concerned about your mental health. Because if you made scratches with a knife and you didn't feel it, you can do other worse things to yourself if which you put your life in danger."  He said, "Where are you calling? Where am I going to? I have already been to this one place by Van Houten and it is a whole something like 11-31 and they didn't help me. From the outside it looks like it's building for help but they also help while."	Could it be that he feels jealousy towards his sister whenever his mother gives him, I wonder?  This is terrible. Seems like he is the one who isolates himself from the family.	Gets emotional.  Sad and disappointed.	problem. Joe claims that his parents aren't his real parents. Maria the health-care worker who is stressed is heavily involved in the family and she goes by Joe to tell his mother that she was going to marry him, mother wants to help Joe, but he rejects her, his father has scratches.

What does mental process mean. Example of process recording in mental health. Sample process recording mental health. What are examples of mental processes. What is process recording in psychiatric nursing. What is a process recording mental health.
